

DESCRIPTION

Investor Data Validation is currently carried out manually which is a time consuming task and also leads to Manual error.

The validation fields are as below:

1. City
2. Pan No matching with Tax status
3. Bank IFSC Code
4. Mobile No syntax
5. Email Id syntax
6. Bank Ac format as per each bank norms
7. Pin Code

Each fields has further more validations. We have implemented 50 validations through RPA to validate above mentioned fields. This validations was not possible with manual efforts.

MANUAL EFFORTS

15-20 days for validating only email id from approx. 25 lakhs records

TIME TAKEN BY BOTS

To validate 60 lakhs records it takes 1 hour.
