

BANK RECONCILIATION

FOR ONE OF THE LARGEST INDUSTRIAL CONGLOMERATE

LAUREN DEVELOPED A BOT FOR ONE OF THE LARGEST INDUSTRIAL CONGLOMERATES, SPANNING THE MANUFACTURING, ENGINEERING, TRADING, TRANSPORT AND LOGISTICS, MARKETING, DISTRIBUTION, CONTRACTING, AND SERVICE INDUSTRIES.

CHALLENGES

MANUAL
PROCESS

TIME
CONSUMING

Bank reconciliation process needed 2-3 accounts executives working for 2-3 hours daily from each company which was a manual process and a tedious task.

SOLUTION

- Lauren developed bots that were built to reconcile all the bank statements.
- The bots took care of the transaction types based on the matching conditions available in the Bank Statements and the Oracle EBS system.

BENEFITS

- Reduced manual intervention
- Maximize accuracy 100%
- Enable digital transformation
- Speeding of the process

CONCLUSION

EMPOWERING YOUR WORK FORCE FOR THE FUTURE.

With RPA Bot the company is enabled to operate with high efficiency and gives the employees freedom to do more productive tasks and less mundane tasks.

CUSTOMER REVIEW:

WITH THE USE OF RPA, LAUREN HAS HELPED MAKE MY LIFE EASIER BY LETTING ME & MY TEAM CONCENTRATE ON BUILDING VALUE FOR THE BUSINESS. THEIR TEAMS PROMPTNESS IN RESPONDING TO OUR NEEDS, UNDERSTANDING OUR BUSINESS AND OVERALL PROJECT MANAGEMENT WAS FANTASTIC.
